Experience

Web Developer Intern — Sep 2026 – Present
ThinkYantra Solution Pvt. Ltd. — *Jaipur, Rajasthan*

- Engineered 5 REST APIs (Node.js, Express, MongoDB) for a production MERN product, wired into React.
- Resolved nearly 50 bugs spanning front end and back end, collaborating with fellow engineers to build and style interfaces.

Gen AI Intern — May 2026 – Jul 2026
Malaviya National Institute of Technology (MNIT) — *Jaipur, Rajasthan*

- Co-developed a hybrid candidate-ranking pipeline in a 4-member team for the RedRob AI Hackathon, combining semantic (SentenceTransformers), lexical (TF-IDF), structured and behavioral scoring against a job description.
- Implemented honeypot detection (MinHash-LSH clustering, quality checks) and cross-encoder reranking, producing a top-100 shortlist with explainable reasoning; fully local, CPU-optimized.

Front-end Intern — Jun 2025 – Jul 2025
PRNIT India LLP — *Jaipur, Rajasthan*

- Developed 10+ reusable React + Tailwind CSS components across 2 core modules, standardizing UI patterns.
- Shipped 2 client-facing features on schedule in a 2-person sprint; verified mobile-first layouts on 3 browsers.

Projects

Meetly | *React, WebRTC, Socket.io, Node.js, Express, MongoDB* — meetly-beta.vercel.app

- Architected and coded solo (115 commits) a browser-based meeting app with peer-to-peer WebRTC calls for up to 6 participants, screen sharing, and persistent room chat for late joiners.
- Designed 5 in-call multiplayer games with server-enforced rules, plus auth and call history.

PrepWise: AI Mock Interviews | *Next.js, TypeScript, Gemini API, Vapi AI, Firebase*

- Integrated Gemini for role-specific questions in under 2s and Vapi AI for live voice interviews (10 beta users).
- Added resume upload (PDF/Word) for tailored questions and per-user AI usage caps to control API cost.
- Automated LLM grading on relevance, structure and completeness, tracking weak areas in Firestore.

Thandak: Heat Safety for India | *Python, XGBoost, Java, Swift, Docker* — thandak-india-api.vercel.app

- Owned the backend of a 3-person project (28 of 43 commits) for a Hindi/English heat-risk service covering 733 districts on web, Android, iOS and WhatsApp, with alerts, personalized advice and hotspot maps.

PaperSetu | *Kotlin, JavaScript, Firebase, Cloudflare Workers, Gemini API*

- Single-handedly built an offline Android tool for teachers to make Hindi/English exam papers (3 PDF sets plus key).
- Built a Cloudflare Worker backend rotating free Gemini/Gemma models for AI question drafts and photo-based questions.

Achievements

Tech Zephyr 4.0 ML Hackathon (Unstop): 2nd of 3,768 teams in qualifier; finalist at IIT Bhubaneswar (Oct 2026).
Other Wins: Hack-A-Throne National Hackathon 2026 – 4th rank; Innovate 2025 – Innovation Award.
Competitive Programming: 1st, GfG Coding Contest (SKIT); 417 on LeetCode, 800+ overall; CodeChef 2-star.

Leadership & Extracurricular

Science & Technology Club, SKIT | *Member, Coordinator, Mentor* — Aug 2024 – Present

- Promoted twice; led 4+ technical workshops and events for 150+ students, including a hackathon.
